pfx files, bootstrap.js file, and all the content from the Dashboard pack that was available for Michael 4. This is currently the most complete dashboard pack available for Michael 4, and it is already used by many of the top brands in the Michael 4 industry. Here is a list of some of the features that this bundle includes: - A way for your visitors to buy your products at a discounted price (sell direct at this price). - A way to track what products your visitors are buying, and how you can adjust your ads and your sales to send more visitors to the products that they are most likely to buy. - A way for your visitors to be able to purchase your products without leaving the page. - A way to use affiliate marketing to promote your sales, to have your sales tracked, and to turn your website visitors into affiliate marketers. - A way to integrate with other programs to help you make even more sales. - A way to add items to your inventory that you can ship to your customers directly. - A way to add to

inventory that you can add to your customers via custom fulfillment. - A way for you to generate additional traffic to your website and to help your conversion rates. And More! This is an example of the dashboard that you can build. [Video](If you're currently using the ad code that was provided by the original author of this bundle, you can download the [Michael 4 Base](from the original author to restore the original dashboard functionality. Note: This is a commercial bundle, and therefore you are only able to use this for personal purposes. You cannot resell this bundle, nor can you transfer the rights to this bundle to another person. The original bundle from the original author of this bundle is available in the [\$295 bundle](== 1.0.2 - Updated the [.pfx](82157476af
